OVERVIEW

During an IPVideoTalk meeting, the webRTC participants can share their desktop or applications, so all the other participants can view the shared content. This document introduces how to use webRTC to share presentation. For more information about IPVideoTalk usage, please refer to the links below:

• IPVideTalk User Manual: http://www.ipvideotalk.com/s/IPVideoTalk%20Cloud%20Conferencing%20System%20User%20Guide.pdf

• IPVideoTalk website:

http://www.ipvideotalk.com/

PREREQUISITE

Before using webRTC to join an IPVideoTalk meeting, please check below supported browsers, operating system, internet connection and hardware information.

- Operating System:
 Windows, Mac, Linux/Ubuntu, Google Chrome OS
 - Web Browser: Mozilla Firefox V36 or later Google Chrome V39 or later Opera V32 or later (currently Opera doesn't support presentation sharing)

• Internet Connection:

Wired connection: 1 Mbps or better (broadband recommended) Wireless connection: 3G connection or better (Wi-Fi recommended for VoIP audio) for Chromebooks

• Hardware:

Microphone and speakers, supported on the PC device or plugged into the PC device

• Software:

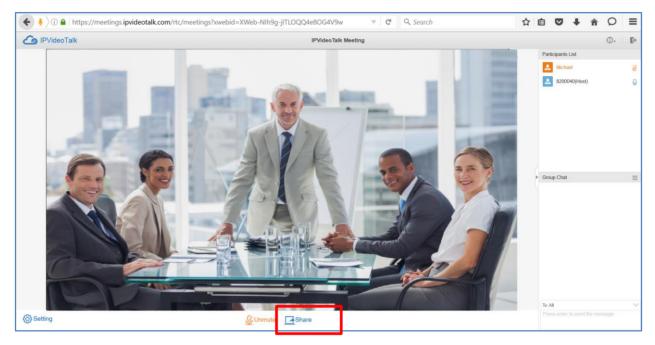

Screen sharing extension installed on the webRTC browsers if sharing presentation

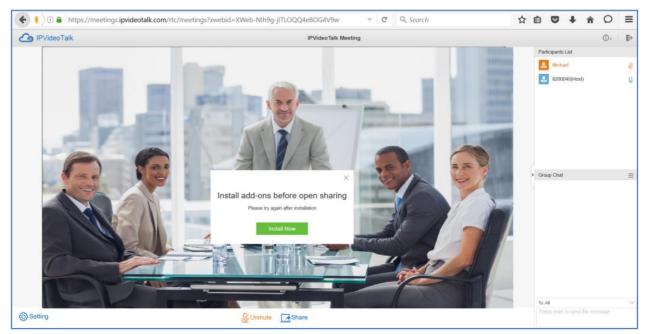

SHARE PRESENTATION FROM FIREFOX

INSTALL ADD-ONS

1. After the webRTC client joins a meeting, click on "Share" icon on the bottom of the web browser meeting interface.

2. The web browser will prompt message to install add-ons.

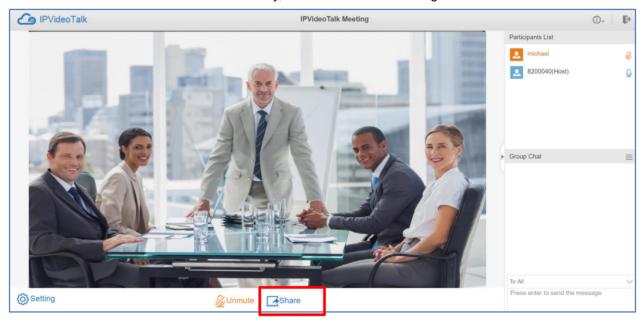

How to Share Presentation from WebRTC

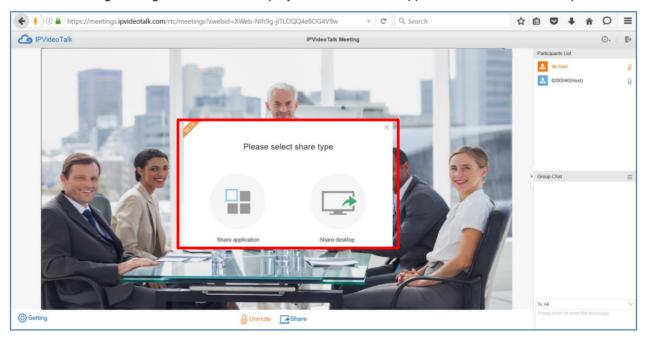

3. Click on "Install Now" to install it.

START SHARING

1. Once the add-ons is installed successfully, click on "Share" button again.

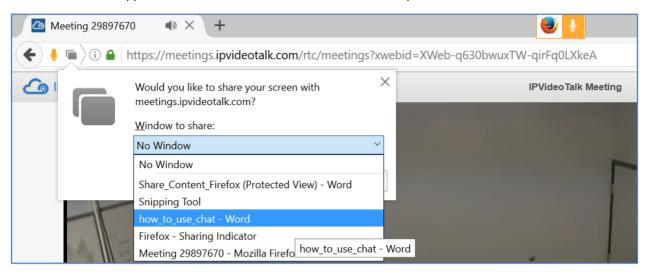

2. The following sharing window will be displayed. Select "Share application" or "Share desktop".

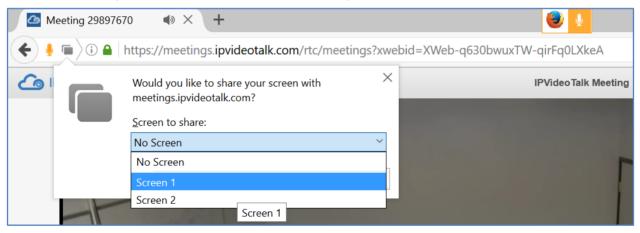

• If "Share application" is selected, on the upper left, a pop-up window will prompt for the user to select the application to share. Select one of them from drop-down list to share.

• If "Share desktop" is selected, on the upper left, a pop-up window will prompt for the user to select the desktop to share. Select one of them from drop-down list to share.

3. The presenter will see the following screen.
